## **DETAILED ACTION**

### ***Status of Claims***

1. Claims 1-4, 6, 7, 9, and 10 are pending. Claims 1 is amended, by the amendment filed 11/25/2008. Claims 1-4, 6, 7, 9, and 10 are under consideration.

### ***Withdrawn Rejections***

2. (a) The rejection of claims 1-4, 6, 7, 9, and 10, under 35 U.S.C. 103(a) as being unpatentable over Doevendans et al (J Mol Cell Cardiol 32:839-851, 2000, of record), in view of Schuldiner et al (PNAS 97(21):11307-11312, 2000; of record), Sugi and Lough (Dev Biol 168:567-574, 1995; of record), Thomson et al (Science 282:1145-1147, 1998), and Nair and Nair (Indain J Exp Biol 35(5):451-456, 1997), as set forth in the Office Action, mailed 6/25/2008 (pp. 6-10), is withdrawn. The claims recite isolating the cell factions based upon cardiac specific markers, which is not taught by the art of record. Therefore, the rejection is withdrawn.

(b) The provisional rejection of claims 1, 2, 4, and 7 on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-5 and 8-12 of copending Application No. 11/086,709, as set forth in the Office Action, mailed 6/25/2008, p. 4), is withdrawn. The copending claims recite without EB formation. Therefore, the claims no longer encompass the same limitations and the rejection is withdrawn.

### ***Double Patenting***

Art Unit: 1632

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the “right to exclude” granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-4, 7, and 10 stand provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-10, 12-18, and 20 of copending Application No. 11/040691

Applicant states that the instant rejection is provisional and if copending application becomes allowable prior to allowance of the current claims, Applicant will address the rejection on their merits or will file a terminal disclaimer. Applicant's statement is acknowledged and the rejection is maintained.

### ***Claim Objections***

Art Unit: 1632

4. Claims 6 and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. No claims are allowed.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
